

# We Salute the Use of Technology by the Nonprofit Community

## TechBridge and Accenture Congratulate the Winner of the Sixth Annual TechBridge Technology Innovation Award

### JUVENILE JUSTICE FUND AND FULTON COUNTY CHILDREN'S ADVOCACY CENTER

These two nonprofits collaborated to achieve amazing results. Their efforts symbolize innovation and progressive thinking – hallmarks of the Technology Innovation Award.

Together they developed a Child Abuse Case Tracking Information System to centralize and share vital information about Fulton County's abused and at-risk children with a myriad of medical, legal, educational and law enforcement professionals. This interagency case-tracking system is the first of its kind in Georgia and it ensures that abused and neglected children quickly get the help they need.

Congratulations also to the two finalists Bobby Dodd Institute and The Well Project for their innovative use of technology to further their missions.

**L to R:** Kimberly Borna, Juvenile Justice Fund; Terri Morton, Fulton County Children's Advocacy Center receiving their award from Mark Hawn, Global Managing Director, Sales Effectiveness, Accenture
